ID

I worked on the branding project for "Mata'am Limo," a kitchen known for offering delicious meals at reasonable prices. My tasks included designing the logo, print materials, and managing their social media pages. Additionally, I designed the menu, established the brand's color signature, and selected fonts that represent the brand's identity.

لقد قمت بالعمل على العلامة التجارية لـ "مطبخ ليمو"، وهو مطبخ يقدم أشهى الوجبات بأسعار متوسطة. تضمنت مهماتي تصميم شعار المطبخ وتصميمات المطبوعات المرتبطة به، بالإضافة إلى إنشاء وإدارة صفحات السوشيال ميديا الخاصة بهم. كما قمت بتصميم قائمة الأسعار وتحديد بصمة الألوان الخاصة بالعلامة التجارية واختيار نوع الخطوط الذي يعكس هوية العلامة.

Design BRANDING

2024

I worked on the branding for "Color Print," a specialized printing center that offers a wide range of printing and design services. The center provides custom printing on souvenirs such as mugs, t-shirts, keychains, and medals. It also focuses on the design, production, and printing of books, notes, and graduation projects, making it a comprehensive destination for students and individuals seeking high-quality printing services.

لقد قمت بالعمل على العلامة التجارية لـ "طباعة ألوان"، وهو مركز متخصص في خدمات الطباعة وتصميم المطبوعات. يشمل نطاق العمل في المركز الطباعة على الهدايا التذكارية مثل المجات، التيشيرتات، السلاسل والميداليات. كما يتخصص المركز في تصميم وإخراج وطباعة الكتب، المذكرات، ومشاريع التخرج، مما يجعله وجهة شاملة للطلاب والأفراد الذين يبحثون عن خدمات طباعة متكاملة بجودة عالية.

I worked at Al-Manar Language Schools for twelve years, where I took on various design and development responsibilities. I designed the school's website and created an accounting program using Python and Django framework. Additionally, I developed a system for displaying students' exam results using national IDs to ensure privacy.

Moreover, I designed numerous banners, invitations, and program files for events and special occasions. I was also in charge of creating customized prints such as book covers, notebooks, and textbooks, as well as designing and producing teachers' ID cards.

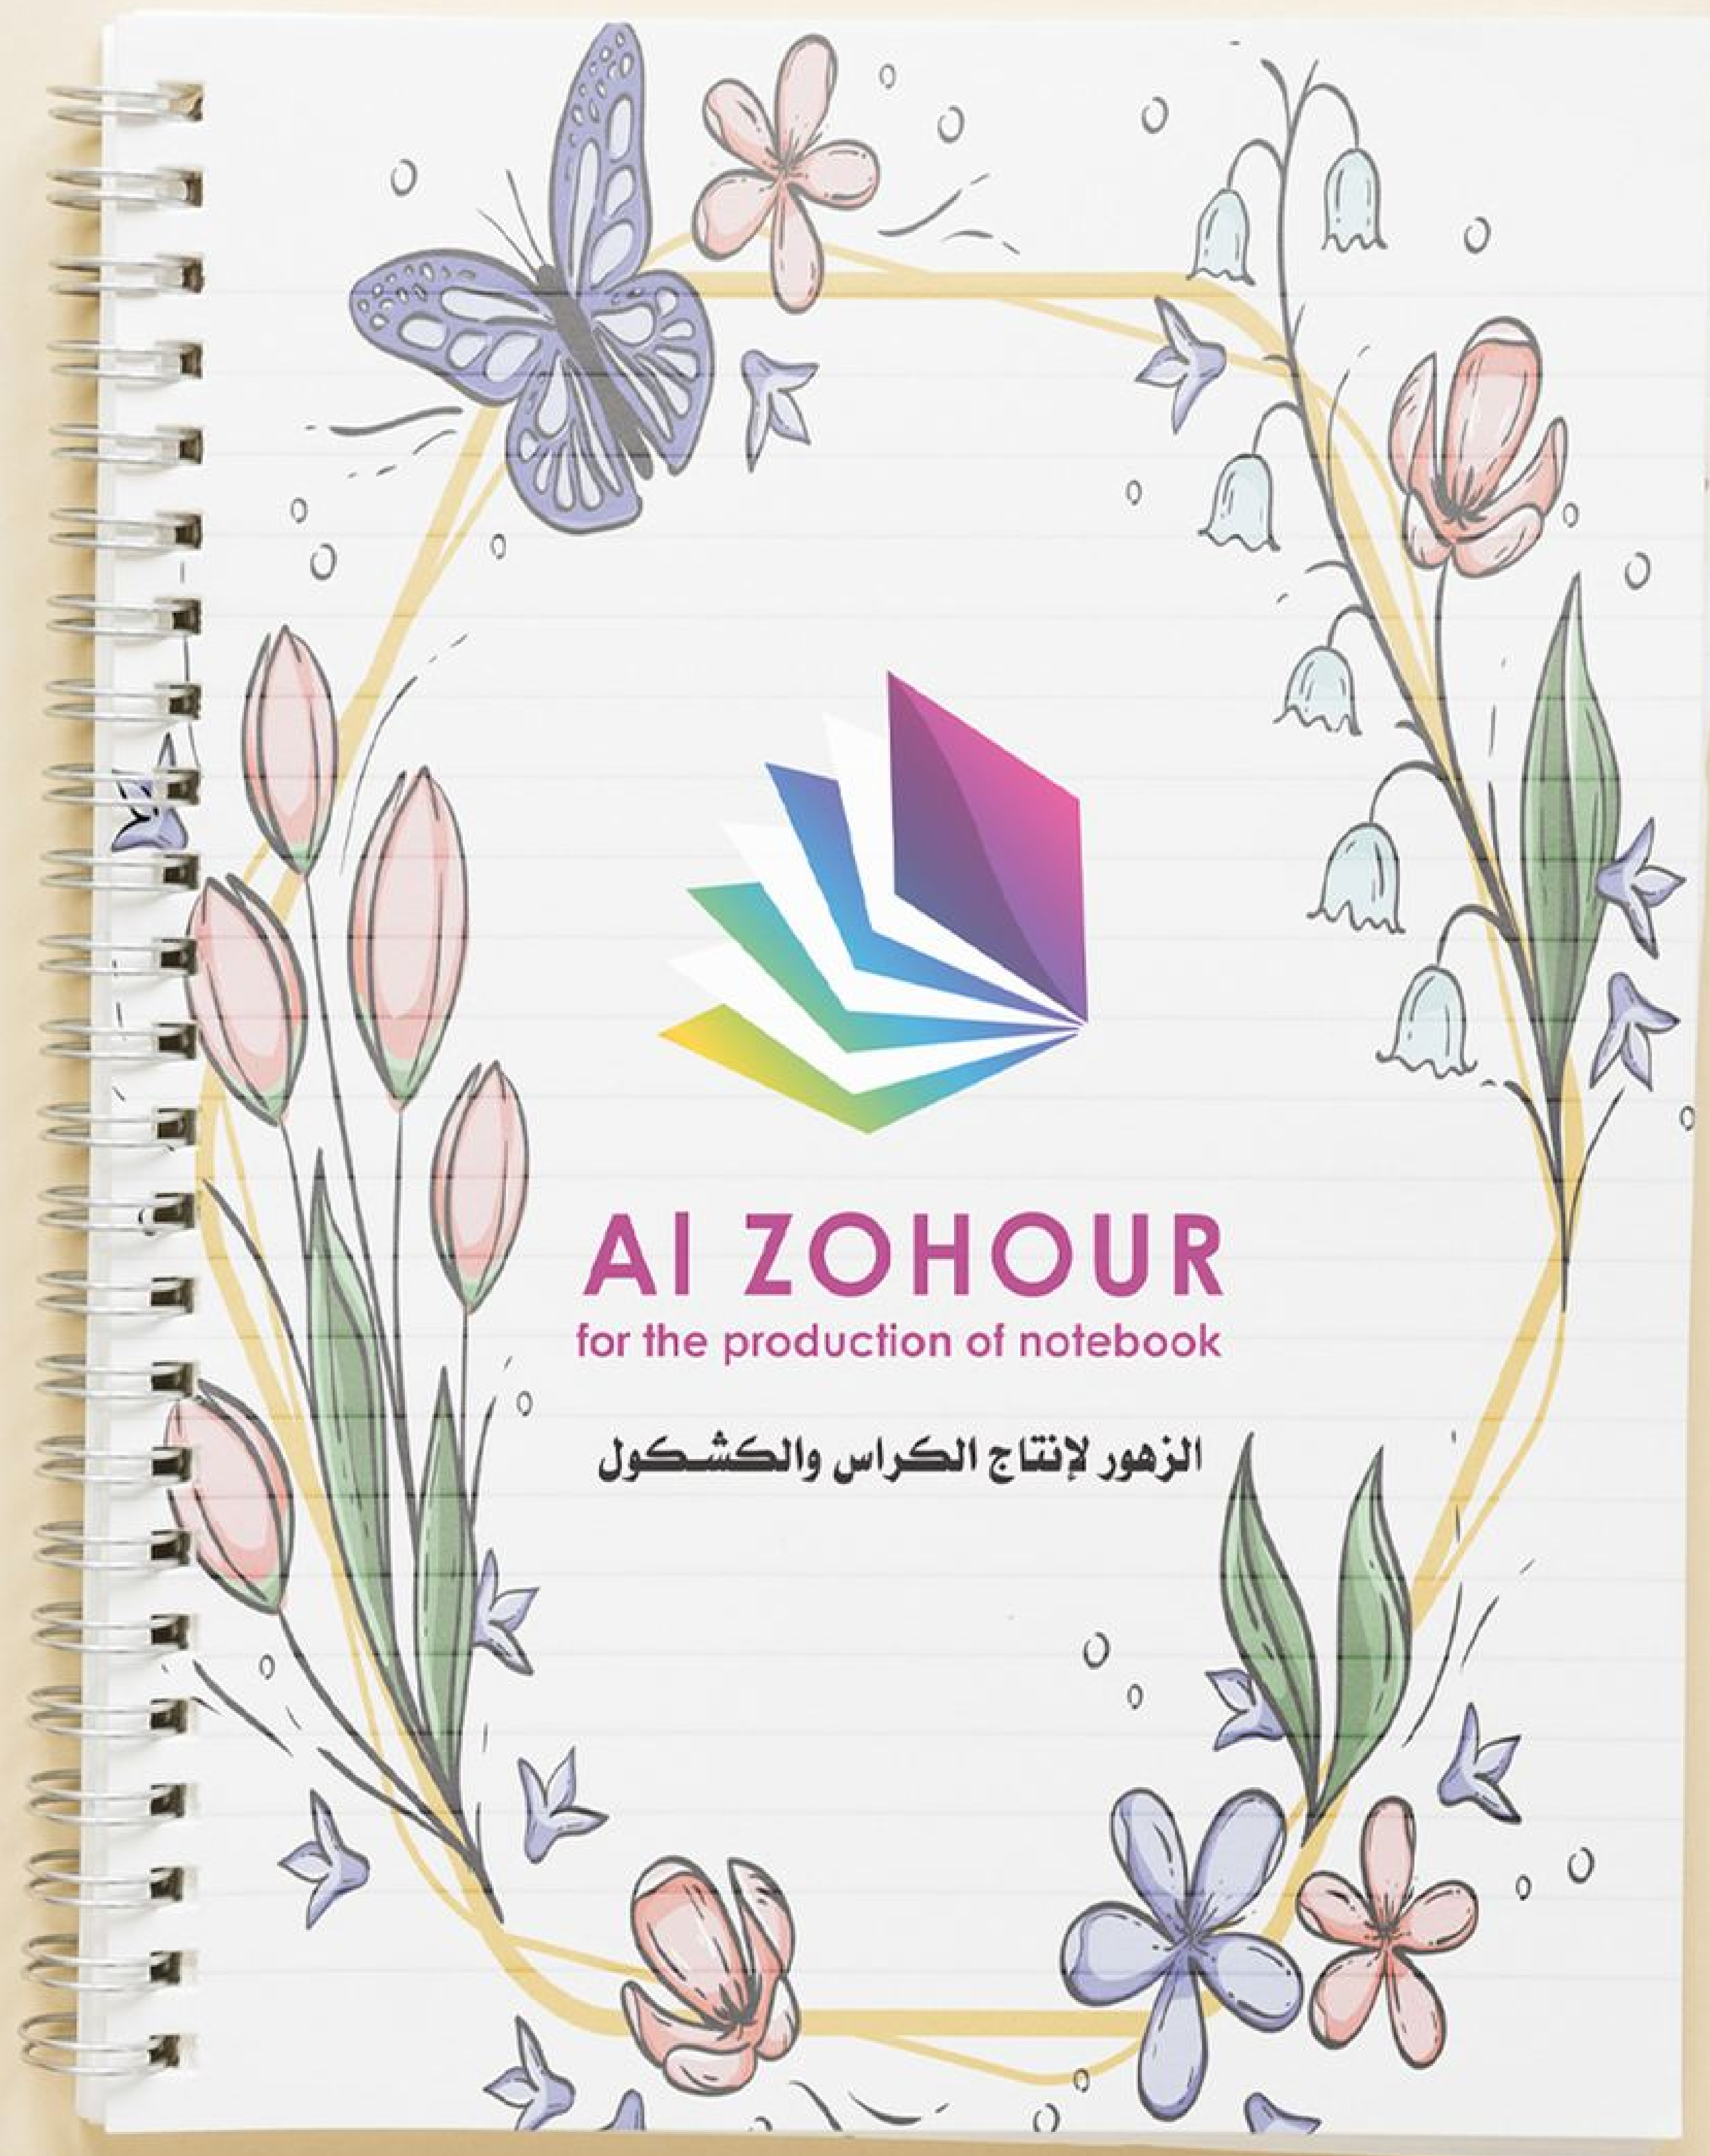

I redesigned and enhanced the school's logo, created the logo for the school's technology development committee, the school's training center, and the IT team. Additionally, I produced several graduation event videos.

Over the course of ten years, I trained and developed teachers on the use of Microsoft Office, editing software, and graphic design tools, significantly improving their technical skills.
